## Preface xiii

---

### CHAPTER 1 A Brief Tutorial on the Ethernet System 1

---

- 1.1 The Ethernet System 1
- 1.2 Ethernet is a Popular, Vendor-Neutral Network Technology 2
- 1.3 Development of Ethernet Standards 2
- 1.4 Elements of the Ethernet System 3
- 1.5 Operation of Ethernet 3
- 1.6 Ethernet Frame and Ethernet Addresses 6
- 1.7 High-Level Protocols and Ethernet Addresses 8
- 1.8 Signal Topology and Media System Timing 9
- 1.9 Extending Ethernets with Hubs 11
- 1.10 Summary 12

### CHAPTER 2 10-Mbps Media Systems 13

---

- 2.1 10-Mbps Media Systems 13
- 2.2 Components Used in the 10-Mbps Media System 14
- 2.3 Putting it All Together 16
- 2.4 Internal and External MAUs 16

<b>CHAPTER 3</b>	<b>10-Mbps Thick Coax, Type 10BASE5</b>	<b>19</b>
	3.1 10-Mbps Thick Coaxial Media System	19
	3.2 10BASE5 Components	20
	3.3 10BASE5 Configuration Guidelines	23
	3.4 Thick Coaxial Physical Topology	24
<b>CHAPTER 4</b>	<b>10-Mbps Thin Coax, Type 10BASE2</b>	<b>25</b>
	4.1 10-Mbps Thin Coaxial Media System	25
	4.2 10BASE2 Components	26
	4.3 10BASE2 Configuration Guidelines	27
	4.4 Thin Coaxial Physical Topology	28
<b>CHAPTER 5</b>	<b>10-Mbps Twisted-Pair, Type 10BASE-T</b>	<b>31</b>
	5.1 10-Mbps Twisted-Pair Media System	31
	5.2 10BASE-T Components	32
	5.3 10BASE-T Configuration Guidelines	35
	5.4 10BASE-T Twisted-Pair Physical Topology	36
<b>CHAPTER 6</b>	<b>10-Mbps Fiber Optic, Type 10BASE-F</b>	<b>37</b>
	6.1 10-Mbps Fiber Optic Media System	37
	6.2 Old and New Fiber Link Segments	38
	6.3 10BASE-FL Components	39
	6.4 10BASE-FL and FOIRL Configuration Guidelines	41
	6.5 Fiber Optic Link Physical Topology	41
<b>CHAPTER 7</b>	<b>10-Mbps Multi-Segment Configuration Guidelines</b>	<b>43</b>
	7.1 10-Mbps Multi-Segment Configuration Guidelines	43
	7.2 Scope of the Configuration Guidelines	43
	7.3 Collision Domain	44
	7.4 10-Mbps Configuration Guidelines: Model 1	46
	7.5 10-Mbps Configuration Guidelines: Model 2	48
	7.6 A Simple Model 2 Configuration Example	52
	7.7 A Complex Model 2 Configuration Example	53

**CHAPTER 8**                      **Miscellaneous Issues for 10-Mbps Networks**    59

---

- 8.1 Miscellaneous Issues    59
- 8.2 The Universal AUI Connector    59
- 8.3 Stackable Repeaters    62
- 8.4 Levels of Compliance with the Standard    64
- 8.5 The SQE Test Signal for External MAUs    69

**CHAPTER 9**                      **100-Mbps Media Systems, 100BASE-T Fast Ethernet**    75

---

- 9.1 Which Fast Ethernet?    75
- 9.2 100-Mbps Media Systems    76
- 9.3 Components Used For a 100-Mbps Connection    77
- 9.4 Putting it All Together    79

**CHAPTER 10**                      **100-Mbps Twisted-Pair, Type 100BASE-TX**    81

---

- 10.1 100-Mbps TX Media System    81
- 10.2 100BASE-TX Components    82
- 10.3 100BASE-TX Configuration Guidelines    85
- 10.4 100BASE-TX Twisted-Pair Physical Topology    86

**CHAPTER 11**                      **100-Mbps Fiber Optic, Type 100BASE-FX**    87

---

- 11.1 100-Mbps Fiber Optic Media System    87
- 11.2 100BASE-FX Components    88
- 11.3 100BASE-FX Configuration Guidelines    90
- 11.4 100BASE-FX Fiber Optic Physical Topology    91

**CHAPTER 12**                      **100-Mbps Twisted-Pair, Type 100BASE-T4**    93

---

- 12.1 100-Mbps T4 Media System    93
- 12.2 100BASE-T4 Components    94
- 12.3 100BASE-T4 Configuration Guidelines    97
- 12.4 100BASE-T4 Twisted-Pair Physical Topology    98

<b>CHAPTER 13</b>	<b>Auto-Negotiation</b>	<b>99</b>
	13.1 Auto-Negotiation	99
	13.2 Fast Link Pulse	99
	13.3 Full Duplex Ethernet Links	100
	13.4 Auto-Negotiation Priorities	101
	13.5 Examples of Auto-Negotiation	102
<b>CHAPTER 14</b>	<b>100-Mbps Multi-Segment Configuration Guidelines</b>	<b>105</b>
	14.1 100-Mbps Multi-Segment Configuration Guidelines	105
	14.2 Collision Domain	105
	14.3 100-Mbps Repeater Types	107
	14.4 100-Mbps Configuration Guidelines: Model 1	108
	14.5 Sample 100-Mbps Ethernet Configuration	109
	14.6 100-Mbps Configuration Guidelines: Model 2	110
	14.7 Model 2 Configuration Example	114
	14.8 Network Documentation	117
<b>CHAPTER 15</b>	<b>Bridges and Switching Hubs</b>	<b>119</b>
	15.1 Linking Ethernet Segments with Bridges	119
	15.2 Brief Tutorial on Ethernet Bridging	120
	15.3 Using Switches to Improve Network Operation	125
	15.4 Performance Issues	128
<b>APPENDIX A</b>	<b>10-Mbps Configuration Examples</b>	<b>131</b>
	A.1 Summary of 10-Mbps Configuration Rules	131
	A.2 Sample 10-Mbps Configurations	132
<b>APPENDIX B</b>	<b>100-Mbps Configuration Examples</b>	<b>137</b>
	B.1 Summary of 100-Mbps Configuration Rules	137
	B.2 Sample 100-Mbps Configurations	138

---

**Table of Contents**

---

**APPENDIX C**                      **EIA/TIA Twisted-Pair Cable Specifications**    141

---

- C.1** EIA/TIA Cable Categories    141
- C.2** Category 5 Cables and Segment Components    142
- C.3** Component Specifications    143
- C.4** Testing Twisted-Pair Segments    144

**List of Resources**    145

---

**Glossary**    149

---

**Index**    153

---
